

Australian Urethane Systems (AUS) purchases rights as sole distributor for Foam Supplies Inc.'s (USA) revolutionary blowing agent "ecomate"® in Australia, New Zealand and the Asia Pacific Region.

Comparison of environmental effects of blowing agents

| | ODP | GWP | VOC |
|--------------|------|-----------|-----|
| CFC 11 | 1 | 4000 | NO |
| CFC 12 | 1 | 8500 | NO |
| HCFC 141b | 0,1 | 630 | NO |
| HCFC 22 | 0,05 | 1700 | NO |
| HCFC 124 | 0,02 | 480 | NO |
| HCFC 142b | 0,06 | 2000 | NO |
| HFC 134a | 0 | 1300 | NO |
| HFC 245fa | 0 | 790 -1040 | NO |
| Cyclopentane | 0 | 11 | YES |
| ecomate | 0 | 0 | NO |

Australian Urethane Systems (AUS) and Foam Supplies, Inc (FSI) have announced a new partnership. FSI has recently added AUS to its International Distribution Network. Already in this network are Purcom Quimica Ltd. of Brazil, and BOC Limited of the United Kingdom.

AUS recently purchased the rights as the sole distributor of Foam Supplies Inc.'s revolutionary blowing agent, " **ecomate** "® for Australia, New Zealand, and the Asia Pacific Region. The purchase was for an undisclosed amount , and for a minimum of 10 years. Both companies are enthusiastic about the opportunities and possibilities that lie ahead in this newly formed relationship. FSI and AUS will market the revolutionary and highly competitive blowing agent under the brand name "**ecomate**"®

For more information about AUS and FSI's partnership, please contact Todd Keske of Foam Supplies, Inc. (St. Louis, Missouri, USA) at (800) 325-4875, tkeske@foamsupplies.com, or Roy Chowdhury of Australian Urethane Systems (Kings Langley, NSW, Australia) at 612 9678 9883, royc@ausurethane.com.
